**Subject:** Warm Springs Tribe technical assistance draft TD  
**Attachments:** Warm Springs TASC TD\_Oct 16 2019.docx

Hi Running Grass,

Attached is a draft technical directive for technical assistance support for the Confederated Tribes of Warm Springs, located in Oregon.

The goal of the support is to develop and provide information about the drinking water, wastewater, and solid waste systems on the reservation, and facilitate discussions within the Tribe to explore costs of a potential resident fee-based system.

Wenona and I are working with Sheila Lewis, OEJ, to develop the TD. OEJ has some funds to support the work. The details of the attached TD may change; Wenona has a meeting with Tribal Council next week to discuss. We wanted to keep you in the loop about this in your role as regional EJ Coordinator.

Thank you,

---
